

Diminishing barrel vaulted roof

The project

GMG's expert team were approached to complete specialist roofing contracting work on a diminishing barrel vaulted roof.

Approach

This project required careful preparation and planning to accommodate the unique requirements. Specialist timber and slate work was carried out with multi-directional shaping to accommodate the finished barrel vaulted roof.

Outcome

The householder was delighted with the completed renovations. We are proud to deliver all our projects and work in a variety of sectors, including commercial and private properties.

The above images show the intricacies of our work.
