

Queen Margaret Hospital, Dunfermline

The project

NHS Scotland appointed GMG to carry out essential upgrades to the flat roof at Queen Margaret Hospital.

Approach

The project required careful planning and preparation to meet the timescales, particularly with the location of work.

Our expert team are highly trained and experienced with a number of different roofing methods, and installed a new single layer roofing system as well as upgrading the flat roof insulation.

Outcome

GMG's on-site team completed the project to a high standard and the client was delighted with the finished job.
