

Lochburn Road project

Maryhill Housing Association

The project

We were delighted to be awarded the contract for Maryhill Housing Association. The property at Lochburn Road required a complete roof renovation.

Approach

This project required a variety of different skills to achieve a high quality finish.

The work involved many pairs of expert hands to bring back the original character of the building by fully replacing the slated roof, along with other essential renovations, such as upgrading bay window roofs, cupola windows, removing and replacing the existing skylights and the cast-iron gutters, chimney re-pointing and upgrading all associated pipes and lead.

Outcome

GMG prides itself on ensuring that every project meets and exceeds our exceptionally high standards of quality. Our specialist team transformed this traditional roof into a modern masterpiece, finished with Spanish slate. The programme of works also provided our apprentices with valuable experience.

CLIENT

Maryhill Housing Association

SCOPE
